

KANNA CAPITAL

Private investment fund
for asset management

KANNA CAPITAL

Kanna Capital is a private investment fund registered in the British Virgin Islands. The fund specializes in cryptocurrency trading.

It is important to trust your money to [professional investors](#) who has deep knowledge of the market and make informed investment decisions

OUR TRADING STRATEGY

Margin short-term trading on cryptocurrency instruments.

We use futures for the top 20 cryptocurrencies by capitalization, such as Bitcoin, Ethereum, ATOM, etc., as the most proven and liquid instruments. The strategy allows you to consistently earn money in different phases of the market.

The **Kanna** principles and our core values

We strive for financial well-being

We always aim to serve a greater number of people and find new and innovative ways to help them achieve financial prosperity. We know how to earn money for our clients

We embrace the entrepreneur's mindset

We understand how entrepreneurs think: they always take risks, rely on their abilities, have confidence in their decisions, and maintain an optimistic outlook. We put ourselves in their shoes and try to anticipate their needs in advance.

We respect principles

We sincerely respect people's views, worldviews, religious beliefs, and other important principles.

We think deeply

We direct all our focus and dive deep into every project. Before making decisions, we conduct thorough market research, study current trends, analyze customer behavior, and immerse ourselves in the details. Persistence, determination, hard work, and a lack of frivolity are the keys to our results.

We value honesty

We adhere to honesty in everything. This helps us provide accurate information, set realistic expectations, and fulfill our promises. We value honesty in ourselves, in business, and always aim to be open in any situation.

We speak directly

We adhere to the principle of direct communication and avoid ambiguity. Such transparency promotes effective collaboration and enables understanding among people.

HOW WE ARE WORKING

METHODS AND PRINCIPLES

Risk Management

For each trade, we strictly adhere to stop loss, which limits losses to a maximum of 3% of the deposit amount. This disciplined approach helps protect our capital.

Risk/Reward Ratio

As a standard practice, we structure our trades with a risk/reward ratio of 1/3. For every \$1 we risk, we aim to make \$3 in profit. This approach ensures that even if we have more losing trades than winning ones, the profitable trades can make up for the losses. It's a strategy that helps protect our money and provides a psychological boost, making it easier to stick to our plan.

Trading Platform

We are the official partner of Bybit. All our transactions are carried out exclusively on this platform. We are committed to a safe and reputable trading environment.

Order Size

Typically, our trade sizes make up around 5% to 10% of our total deposit:

1. For every 5% we're willing to risk on a trade, we aim to make a 10% profit.
2. We don't let ourselves lose more than 10% of our account in a single day.
3. If we hit that 10% loss limit, we stop trading for the day and review our strategy.
