Elon Musk
SpaceX Founder & CEO

SpaceX designs, manufactures and launches rockets and spacecraft. SpaceX was created by Elon Musk to revolutionize the aerospace industry and make space travel an affordable reality. Currently SpaceX is working on a new generation of reusable launch vehicles that can take people to Mars and other planets of the Solar system. **SpaceX owns Starlink** which provides a global satellite system. **It has already launched more than 2 000 satellites** to provide high-speed satellite broadband Internet access in places where it was unreliable, expensive or completely unavailable.
